About Company

"We Don't Just Clear Pipes — We Protect Infrastructure."

ND Production Group is a specialist service provider in water, waste, and infrastructure management. Based in **Durban** and founded by **Nathi Biyela**, we have built our name on delivering reliable, efficient, and high-quality services across the industrial, municipal, mining, and commercial sectors.

With a focus on innovation and performance, we integrate advanced technology with skilled workmanship to solve critical infrastructure challenges — from high-pressure pipe jetting and vacuum extraction to CCTV inspections and pipeline rehabilitation. Every project we undertake is handled with professionalism, precision, and care.

What sets us apart is our ability to adapt. We understand that every client has unique operational needs and environmental conditions, which is why we offer flexible, results-driven solutions that go beyond basic maintenance — we protect assets, prevent costly failures, and ensure long-term system performance.

At ND **Production Group**, we are more than just a service provider. We are a hands-on partner invested in delivering measurable results while supporting the safety, compliance, and sustainability goals of our clients.

Mission & Vision

Precision Services for a Cleaner Tomorrow.

Vision

To become a trusted industry leader in infrastructure maintenance and environmental services, known for reliability, innovation, and our commitment to building cleaner, safer communities.

Mission

To deliver innovative, high-quality water and waste management solutions that protect infrastructure, support environmental sustainability, and exceed client expectations through skilled service and cutting-edge technology.

OUR
SERVICES

Our Services

At **ND Production Group**, we provide a comprehensive range of water, waste, and infrastructure solutions designed to meet the needs of modern municipalities, industries, and commercial operations. With advanced technology and a skilled team, we ensure your systems run efficiently, safely, and with minimal disruption to operations or the environment.

High-Pressure Jetting

We offer high and ultra-high pressure water jetting to clean pipelines, drains, and sewers for industrial, municipal, and domestic systems — restoring flow and preventing blockages.

Industrial Vacuum Services

Our powerful vacuum units handle the extraction, transport, and safe disposal of liquid and sludge waste from commercial, industrial, and municipal sites.

Pipeline Rehabilitation

We specialize in trenchless pipeline repair solutions, helping clients restore ageing or damaged infrastructure with minimal excavation and long-lasting results.

CCTV Pipeline Inspections

Using advanced robotic cameras and digital inspection tools, we provide precise fault detection, mapping, and visual assessment of underground pipelines.

Geospatial Mapping & GIS

Our geospatial services deliver accurate digital mapping and GIS analysis to support infrastructure planning, asset tracking, and environmental reporting.

Infrastructure Asset Management

We offer customized platforms and solutions to help clients monitor, maintain, and manage their infrastructure assets for long-term reliability and regulatory compliance.

Project Management

At **ND Production Group**, our project management approach is built on precision, transparency, and accountability. We oversee each phase of a project — from planning and execution to monitoring and close-out — ensuring timelines are met, budgets are respected, and quality is never compromised.

Our experienced project managers coordinate teams, communicate with stakeholders, and ensure compliance with industry regulations and safety standards. Whether it's a pipeline rehabilitation, waste removal operation, or infrastructure maintenance project, we apply structured methodologies to deliver consistent, measurable results.

Our Project Management Strengths:

- Clear project scoping and planning
- Efficient resource and equipment allocation
- On-site supervision and performance monitoring
- Risk assessment and mitigation
- Regular progress reporting and client updates
- On-time and on-budget delivery

With **ND Production Group**, you gain a committed partner who takes ownership of your project goals — ensuring smooth execution and lasting impact.

Company Highlights

At **ND Production Group**, we pride ourselves on delivering smart, efficient, and future-focused solutions in water, waste, and infrastructure services. Our strength lies in our ability to combine innovation with hands-on experience to meet the diverse needs of our clients.

Ol Durban-Based with National Reach

Headquartered in Durban and founded by Nathi Biyela, we serve clients across South Africa with scalable and responsive service delivery.

02

Advanced Technology & Equipment

We invest in modern, high-performance equipment — from high-pressure jetting units to CCTV inspection systems — to ensure safe, accurate, and efficient results.

O3 Skilled & Experienced Team

Our workforce is made up of trained professionals who are passionate about quality service and driven to exceed client expectations.

04

End-to-End Service Offering

From cleaning and inspection to rehabilitation and asset management, we offer a full suite of services tailored for municipal, industrial, and commercial infrastructure..

Thank You

At **ND Production Group**, we don't just offer services — we provide solutions that protect your assets, enhance performance, and support sustainable development. Backed by experience, driven by innovation, and led by a commitment to quality, we are ready to take on your most complex infrastructure and environmental challenges.

Flowing Smarter. Cleaning Better.
